Mr George W Cable says the Chattenee ga (Tenn / times with considerable righteons in ligaction is being denonneed as a New England Puritan by the stunid press of Tusca loosa Ala Mr Cable was born in New Orleans was a Confederate sollier and never trave led beyond the borders of Lou stana until he was 30 years old. The great novelest and historian offended some of the Tuscalnosa bemaking by some philosophical abs rvations in a lucture he delivered there hence their abuse

it is arger than the capitol at Washington, Mr Mon gomery Schuvler, who publishes an elab-

Many teachers at the last matitute held by Hon E B McElroy at Salem on June 30 and July 1 2 and 3 1884 advocated a change in our system of orthography It is of the atmost importance to English speaking peoples that this matter be thoroughly investigated Nearly two billions of the human family use the En lish anguage as a vehicle of thought. The ter of Alaska is enlivened by the thoughts of English Tenayson and the terrid plants of India are humanized by hing James' translation of the bible Chancer s tales are read by the stormy shore of the Cape of Good Hops, and Shakespeare : plays are relished beneath the southern cross

Three languages engress the civilized peoples of the world viz, French, German and English The grandest eloquence and most sublime

of the world viz. Trench, derman and English
The grandest eloquence and most sublime
theught of the human family are enshrined
within these tongues, and we ought to consider
if the well to change the garaiture of these
hallswell treasures
In cortors maintain that there are forty
three elementary sounds in the English lan
maker of distinct characters to represent these
sounds. It is true that our alphabot is in
perfect hat forming a new character for every
sound would tend to make our lenguage like
the Chinese, with its multitude of characters
so difficult to the unimitiated. The forty three
characters bear only a small proportion to the
comber of words to the English language, the
these elementary sounds may be improved by
those whose ears are more acute than those
will ever knew how far the augmentation will
pro-need in the future If once the iconoglast
put his unhallowed hands on the words of our
me there tongues, we may instity ask where will be
and his successor stop?

The loose orthography of Gedmon the Mont,
became more stuple with Chauser, and in
Shakespears and the bible the spelling is almost
as raders as the dayly mempaper printed yestercay. What a hot; of writers from Shakes
pears to Tennyson! Shall we change a comeon
clatre that will renter so many precious volumes only the quase of its suriquary? If we
do he new changed language will be changed
to another until the constant changing will
searched the grandest literature of which any
peoule can boast

The English language is formed of many
Greek and Lailu world grafted on the Anglo
Greek and Lailu world grandes of the suriques; and
The English language is formed of many
Greek and Lailu world grafted on the Anglo

sacrines the grandest literature of which apy penule can boast.

The Engitch innuage is formed of many Greek and Latin world grafted on the Anglo Saxon atom. If the Anguage is phonetically was ten these Latin and Greek words must necessarily be changed, and this innovation would lead us to subject the knount innuages to phonetic rules, Many moderns pronounce dear languages differently, and hence every

through Utab it is Mormon problem in a significant the resident floatiles and the Mormon concerts are also at upon the verge of taking up arms against upon the verge of taking up arms and things have resched such a point says the addurt for a contrained and though arms and those differing only a little post on of the abjection of such dessens of words would be more than the parent double to be permanent. On the contrary it is thought by many of those who have the best thought by many of those who have the best opportunity to observe the inside life of Mormons that the present appect of the church and priestheod is only a blint for some ulterior purposs which the near fature will bring to light. It would be too a mple credibity to be all the formation and priestheod is only a blint for some ulterior purposs which the near fature will bring to light. It would be too a mple credibity to be
